

## CZECH ATTITUDES TOWARDS USING MILITARY FORCE IN IRAQ

“Gabal, Analysis & Consulting” and “Median” carried out an ad-hoc research on Czech attitudes towards some aspects of the crisis in Iraq and its solution. The project was financed by both research companies. Data was collected on December 7, 2002 using phone call interviews based on a standardized questionnaire. The survey was run on representative sample of 350 Czech inhabitants of 18 years and older. The survey provided the following results:

**IF PROVEN THAT IRAQ HAS BEEN CONCEALING WEAPONS OF MASS DESTRUCTION, DO YOU BELIEVE THE EVEN IF THIS MEANS A MILITARY INTERVENTION ?**

**DO YOU THINK THE PRESIDENT OF IRAQ SADDAM HUSSEIN WOULD USE WEAPONS OF MASS DESTRUCTION IF HE HAD THE OPPORTUNITY?**
